Financial Transparency Coalition

VISUAL IDENTITY

Brand Guidelines

How to use the logo, colours, typefaces and graphic elements of the Financial Transparency Coalition.

Version 1.0 · November 2026

ABOUT THIS GUIDE

One coalition, one recognisable voice

The FTC brings together organisations from the Global South and North. A consistent identity helps people recognise our work, wherever it is published and whoever publishes it.

This guide sets the rules for the logo, colours, typefaces and graphic elements. Use it for reports, briefs, event flyers, the website, social media and presentations. The files mentioned here are in the FTC Brand Kit.

The idea behind the symbol

Two layers overlap. Where they meet, the surface opens and lets you see through: what was hidden becomes visible. That opening is the heart of financial transparency.

01 · THE LOGO

The primary logo

The primary logo is the symbol and the wordmark side by side. Use it whenever there is room for it: it is the first choice for every piece.

Symbol

Two overlapping squares in navy and FTC blue, open where they meet.

Wordmark

Aa

The full name set in Archivo on three lines. It is artwork: never retype it.

Always use the supplied files. Do not redraw the logo or rebuild it from these parts.

02 · LOGO VERSIONS

Three versions for different spaces

Horizontal (primary)

The default. Use it in headers, covers, footers, banners and most layouts.

Stacked

For narrow or tall spaces: posters in portrait, roll-ups, the end of a video, a square tile.

Symbol

Only where the FTC name is already present nearby, or where space is very small: avatars, favicons, page footers.

03 · COLOUR VERSIONS

Pick the version that contrasts with the background

Colour is the default. Use the single-colour versions only when printing in one ink or when the background makes colour hard to read.

Colour

Default, on white and light backgrounds.

Negative

On navy, dark colours and dark photos.

Navy

One-colour printing on light paper.

Black

Black-and-white printing and newspapers.

White

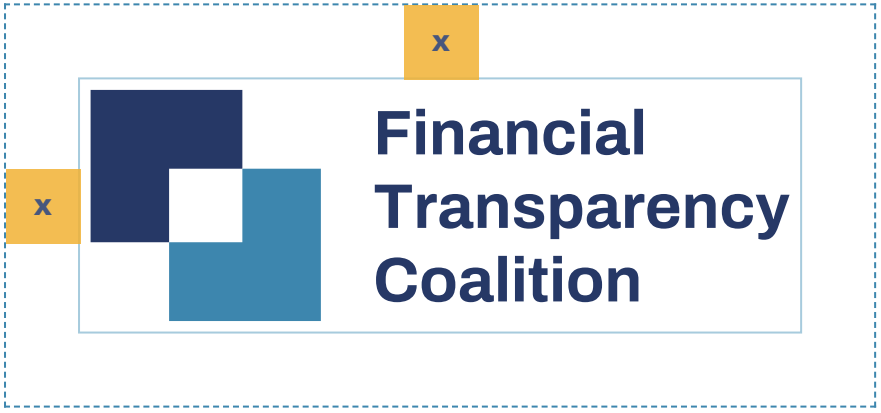

On FTC blue or busy images, when the negative version does not stand out.

The opening where the squares meet is always empty: it shows the background behind the logo. Never fill it with another colour.

04 · CLEAR SPACE AND MINIMUM SIZE

Give the logo room to breathe

Keep a clear space around the logo equal to **x**, the size of the opening where the two squares meet. No text, image or edge may enter that space.

The same rule applies to the stacked version and to the symbol on its own.

Minimum size

Below these sizes the wordmark stops being legible. Use the symbol instead.

Horizontal

Print 35 mm wide · Screen 120 px wide

Stacked

Print 20 mm wide · Screen 70 px wide

Symbol

Print 6 mm · Screen 16 px

05 · INCORRECT USE

Do not alter the logo

Do not stretch or squash it.

Do not rotate or tilt it.

Do not change its colours.

Do not add shadows, outlines or other effects.

Do not retype the name or change its typeface.

Do not use the colour version on dark or low-contrast backgrounds.

Do not rearrange the symbol and the wordmark.

Do not fill the opening of the symbol.

06 · COLOUR PALETTE

Blues anchored in navy, with one warm accent

CMYK values are approximate. Ask the printer for a proof on the paper you will use.

Navy

#263866
RGB 38 56 102
CMYK 63 45 0 60

Primary. Logo, headings, dark backgrounds.

FTC Blue

#3D86AE
RGB 61 134 174
CMYK 65 23 0 32

Primary. Logo, graphics and large text.

Deep Blue

#2C6A8C
RGB 44 106 140
CMYK 69 24 0 45

Links and small coloured text on white.

Amber

#F2B233
RGB 242 178 51
CMYK 0 26 79 5

Accent only: buttons, labels, highlights.

Sky

#7FB3CF
RGB 127 179 207
CMYK 39 14 0 19

Logo and accents on navy.

Sky Light

#A7CBDD
RGB 167 203 221
CMYK 24 8 0 13

Rules, borders and chart tints.

Mist

#EEF5F8
RGB 238 245 248
CMYK 4 1 0 3

Light backgrounds and boxes.

Slate

#4A5875
RGB 74 88 117
CMYK 37 25 0 54

Secondary text and captions.

07 · USING COLOUR

Mostly white and navy, amber in small doses

Layouts should feel open and calm. White and navy carry most of the surface; FTC blue organises it; amber is a signal, so the less it is used, the more it works.

White 50% | Navy 25% | FTC Blue 12% | Mist

In charts

Use the blues in this order: Navy, FTC Blue, Sky Light, Sky. Highlight one value with Amber when the chart makes a single point.

Contrast for readable text

Body text must reach a contrast of at least 4.5:1 with its background. Large headings (24 px / 18 pt and up) need 3:1.

Aa Text	✓	Navy on white · 11.4:1
Aa Text	✓	Deep Blue on white · 5.9:1
Aa Text	✓	White on navy · 11.4:1
Aa Text	✓	Amber on navy · 6.1:1
Aa Text	✓	Sky on navy · 5.0:1
Aa Text	✗	FTC Blue on white: large text only · 4.0:1
Aa Text	✗	Amber on white: never for text · 1.9:1

08 · TYPOGRAPHY

Two free typefaces

Archivo

Headings, titles, labels, numbers, buttons and the whole website. Weights: SemiBold, Bold, ExtraBold.

Inter

Running text in reports, briefs and documents. Weights: Regular, Medium, SemiBold.

Both are free to download from Google Fonts. When they are not available (for example, in an email or on a computer without them), use **Arial**.

Title Archivo ExtraBold · 40/44	**Ending the era of secrecy**
Heading Archivo Bold · 24/30	**Public registries of beneficial owners**
Label Archivo Bold · 12, caps, +14%	POLICY BRIEF · NO. 3
Body Inter Regular · 15/24 screen, 11/17 pt print	Financial secrecy is a structural driver of inequality, tax abuse, environmental destruction and corruption.
Caption Inter Regular · 12/17, Slate	Source: FTC analysis. Figures in US dollars.
Key figure Archivo ExtraBold · 56	**US$ 1.28 bn**

Sentence case for headings. Left-aligned text; never justified.

09 · GRAPHIC ELEMENTS

A few elements, used the same way everywhere

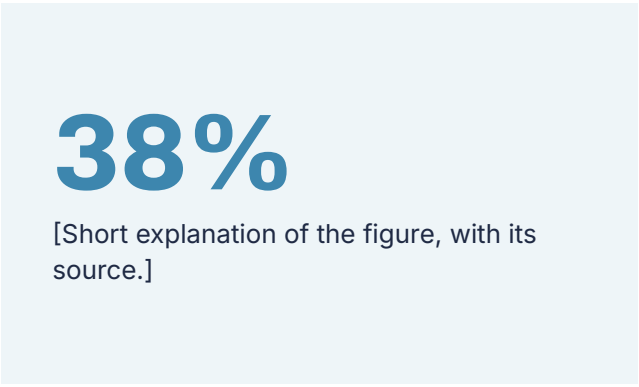

The cropped symbol

On covers and banners, the symbol can appear very large and cut by the edge of the page, in navy-on-navy and FTC blue. Never crop it in the logo itself.

Amber labels and highlights

Amber marks the type of document, a quote bar or the main button. One or two touches per page at most.

Key figures

One large number in Archivo ExtraBold, FTC blue, with a short line of context underneath and its source.

Avoid gradients, drop shadows and decorative icons. Square corners, flat colour and plenty of white space are part of the identity.

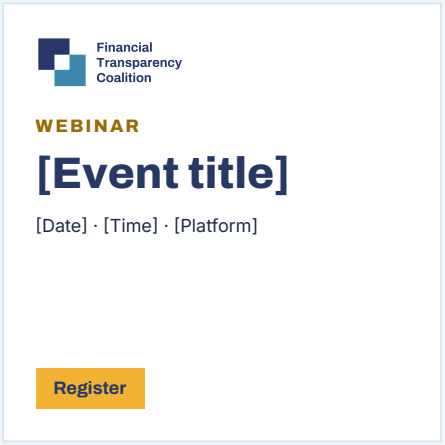

10 · APPLICATIONS

The identity at work

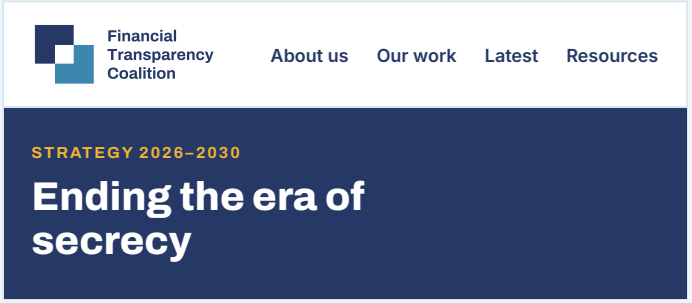

Ready-made templates exist for long reports, policy briefs and event flyers in three formats. Start from them rather than from a blank page.

Report cover

Event flyer (square)

Website header

Social media: profile picture and cover.

11 · BRAND KIT AND CONTACT

Everything you need, in one folder

01-logo	Horizontal, stacked and symbol, in five colour versions. SVG for print and web; transparent PNG in three sizes for Word, PowerPoint and email.
02-colours-and-type	The palette with HEX, RGB and CMYK values, and the colour codes for the web.
03-social	Profile pictures and covers for LinkedIn, X, Facebook and YouTube.
04-email-signature	A ready-to-paste signature for the Secretariat and members of staff.
05-favicon	The icons used by the website.
